

EMILIO FONSECA

Full-Stack Developer

Tamaulipas, México | [+52 833 681 7886](tel:+528336817886) | emilio656565@outlook.com | linkedin.com/in/emilio-fonseca65 | github.com/EmilioUgarte65 | [Portfolio](#)

SUMMARY

Full-Stack Developer who builds production software end to end — web apps (ERP, e-commerce, management tools), data & BI, and applied AI. I integrate REST APIs with Python (FastAPI) and Node.js and turn manual operations into software that runs itself. Currently shipping to production; portfolio with live, explorable demos available.

EXPERIENCE

Full-Stack Developer — MN del Golfo

2025 – Present

Materials retail chain · Tamaulipas, MX

- Develop and ship internal production software (web apps, dashboards, integrations and automations) used daily across the company's branches.
- Build AI-powered automations and tools that reduce operational workload and improve access to information for internal teams.
- Work across the full stack with Node.js, React, SQL Server, Firebase and Docker, including ERP and messaging integrations.

PROJECTS

Dexter — Open-source AI agent platform

Apache 2.0

Python · Go (TUI) · SQLite (FTS5) · MCP · multi-LLM

- Built a configurator that extends AI agents with 46+ lazy-loaded skills and persistent memory (Engram, SQLite FTS5); 6 platforms, 99 tests.
- Implemented a multi-LLM router with fallback (Anthropic, OpenAI, Google, Ollama), a WhatsApp auto-responder and computer-use GUI control.

Vértice — Full-stack work-management app

Live demo

React · TypeScript · FastAPI · PostgreSQL · Docker · offline-first PWA

- Developed an offline-first PWA to manage projects, quotes and payments end to end, with secure authentication.

Vitrina — E-commerce storefront

Live demo

React · Vite · responsive UI

- Built a responsive online store with category catalog, cart with promotions, stock alerts and instant product search.

Dino AI — Reinforcement-learning game agent

GitHub

Python · Stable-Baselines3 (PPO) · OpenCV · PyTorch

- Trained an agent that learns to play Chrome's dinosaur game on its own using reinforcement learning and computer vision.

EDUCATION

B.Sc. in Computer Systems Engineering

2020 – 2025

Universidad Autónoma de Tamaulipas

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, SQL, C# · **Frontend:** React, TypeScript, Vite, Tailwind, PWA / offline-first · **Backend:** Node.js, Express, FastAPI, REST, JWT, OAuth · **Data & DevOps:** PostgreSQL, SQL Server, Firebase, Docker, Git, Linux, CI/CD · **AI & LLMs:** GPT-4o, Claude, Whisper, RAG, prompt engineering, tool calling, MCP

CERTIFICATIONS

AI from Zero to Production — BIG School (2026); Data Fundamentals — Google / Coursera (2026); additional Coursera credentials, and Mastermind certificates in development, cybersecurity and game development.

HONORS & LANGUAGES

ICPC Mexico Grand Prix 2022 — competitive algorithmic problem solving. · **Languages:** Spanish (Native), English (B2, Intermediate-Advanced).
